

Heileurythmie-Ausbildung Dornach  
Medizinische Sektion am Goetheanum  
Freie Hochschule für Geisteswissenschaft

## The Dornach Basic Eurythmy Therapy Training with State Qualification

Information and meeting event:  
Saturday May 16th, start at 2pm  
(Greeting, short presentations, discussion, end approx. 16h)

Location: Goetheanum, Terrassensaal

Do you enjoy the lively, soulful movement ... Are you interested in its  
therapeutic possibilities, anthroposophical human science ... and are you  
looking for a therapy profession with a state degree?  
Then maybe that would be the right thing ...

This new basic eurythmy therapy training is an innovative pilot project. It  
combines basic eurythmy training with eurythmy therapy training and, after  
4 years, leads to a state-recognized professional qualification (industry  
certificate from OdA KT, complementary therapist in eurythmy therapy). This  
KT professional diploma entitles you to EMR registration, work with health  
insurance and AHV billing.

Registration (recommended): [info@heileurythmie-ausbildung.ch](mailto:info@heileurythmie-ausbildung.ch)
